Map of Data Germany 2005 (Side 4 von 4)

Notes:

1. East Germany = new states and Berlin; West Germany = former Federal territory excluding West Berlin.
2. 10th co-ordinated population forecast, variety 5; see footnote 1.
3. Service industry: trade, transport and news conveyance, and other areas of the economy (i.e.: credit and loan business, services for enterprises, public administration, public and private services).
4. Dependent employees.
5. Freelancers and family members who help out.
6. Labour force participation rate for the age group 15 - under 65.
7. Share of employees' payment to national income, minus effects resulting from changes in employment structure. The employee rate established for the year 1991 has remained constant.
8. White collar workers in manufacturing trade, retail trade, credit and insurance trade; blue collar workers in manufacturing trade.
9. Pension insurance for white and blue collar workers; average pension contribution of those insured; pension age - 1st July.
10. The cut-off date for the statistics of the Federal Agency of Employment was fixed at the middle of the month in 2005. According to the Federal Agency comparisons with previous years are therefore slightly inaccurate.
11. Unemployed in %, related to each dependent civil employee.
12. For singles.
13. Jobs involving additional expenditure (so-called "additional jobs").
14. Share of recipients of Unemployment Benefit II, and social welfare recipients within the population as of 13.12.2004.
15. Numbers of population within the same age group as a percentage - as of 13.12.2004.
16. Members (employees) of the statutory medical insurance contribute an additional 0.9% to medical insurance since 01.07.2005.
17. In addition members under the age of 65 and without children make an additional contribution to the social care insurance equivalent to 0.25 percentage points.
18. Share of dependent employees with limited contract of employment, excluding apprentices.
19. Paid overtime, see footnote 1.
20. Labour productivity per employee hour; in figures from 1995, see footnote 1.
21. Estimate of the Institute for Economic Research, Halle.
22. Number of apprenticeship places per 100 applicants.
23. Changed form of taxation since the year 1998.
24. Former Federal territory.
25. Statistical size covering blue and white collar workers, and career civil servants in all areas of the economy.
26. European industrial relations observatory (eiro)
27. Population below poverty level after social transfers - poverty level defined as 60% of the national median equivalent income.
28. Aged between 15 and 64 years.
29. Annual average; aged 15 - 74 years.

Note:

The data referred to is partly in rounded up figures. The amount of change against the basis or previous year's figures is based on the exact original figures. This explains the minimal variance between printed data and the changes referred to. As a rule, the 'territorial boundary east' refers to the new states and east Berlin and 'west' refers to the Federal Republic and West Berlin. Any varying territorial boundaries are indicated by footnotes.

Abbreviations:

GDP	Gross Domestic Product
CGB	Christian Trade Union
DBB	German Union of Career Civil Servants
DGB	Confederation of German Trade Unions
IAB	Institute for Labour Market and Work Research
MC	Micro census
PP	percentage points
SC	Social Code
